

Our Mission and Vision

The mission of Creative Living Options, Inc., is to provide holistic, individualized support systems for adults managing developmental disabilities. CLO empowers consumers to choose and control their homes, liberated from restrictive congregate environments, achieve increasing independence, and widen their circles of community involvement and support.

This vision is based upon the belief that every person has a fundamental right to live in a home of his or her choice, controlled by him/her through lease or ownership, and that no person should be forced to live away from his or her community in a setting which is segregated due to the nature and/or severity of any disability. Further, it embraces a value system that inherently honors and supports individual choices and decisions regarding personal lifestyle, relationships, health, work, education and social experiences, and the rights of an individual citizen of his/her community.

The primary goal of Creative Living Options is to provide the supports and services necessary to assist and empower persons with developmental disabilities to live the lives they desire, and to achieve their own personal goals. This includes choosing their own living environments and support, deciding with whom they associate and how they spend their time, achieving successful community membership, and gaining life skills to support them in reaching their individual goals. As such, Creative Living Options will be true partners with each person and his or her circle of support. Support services will be based on each person's individual preferences, strengths and needs, in order to ensure as much as is possible that his or her disabilities will not be a barrier to successful community living, and that independence and access to the community are optimized.
